

# Making a Graph with Frank!

Turning our jellybean measurements into a picture

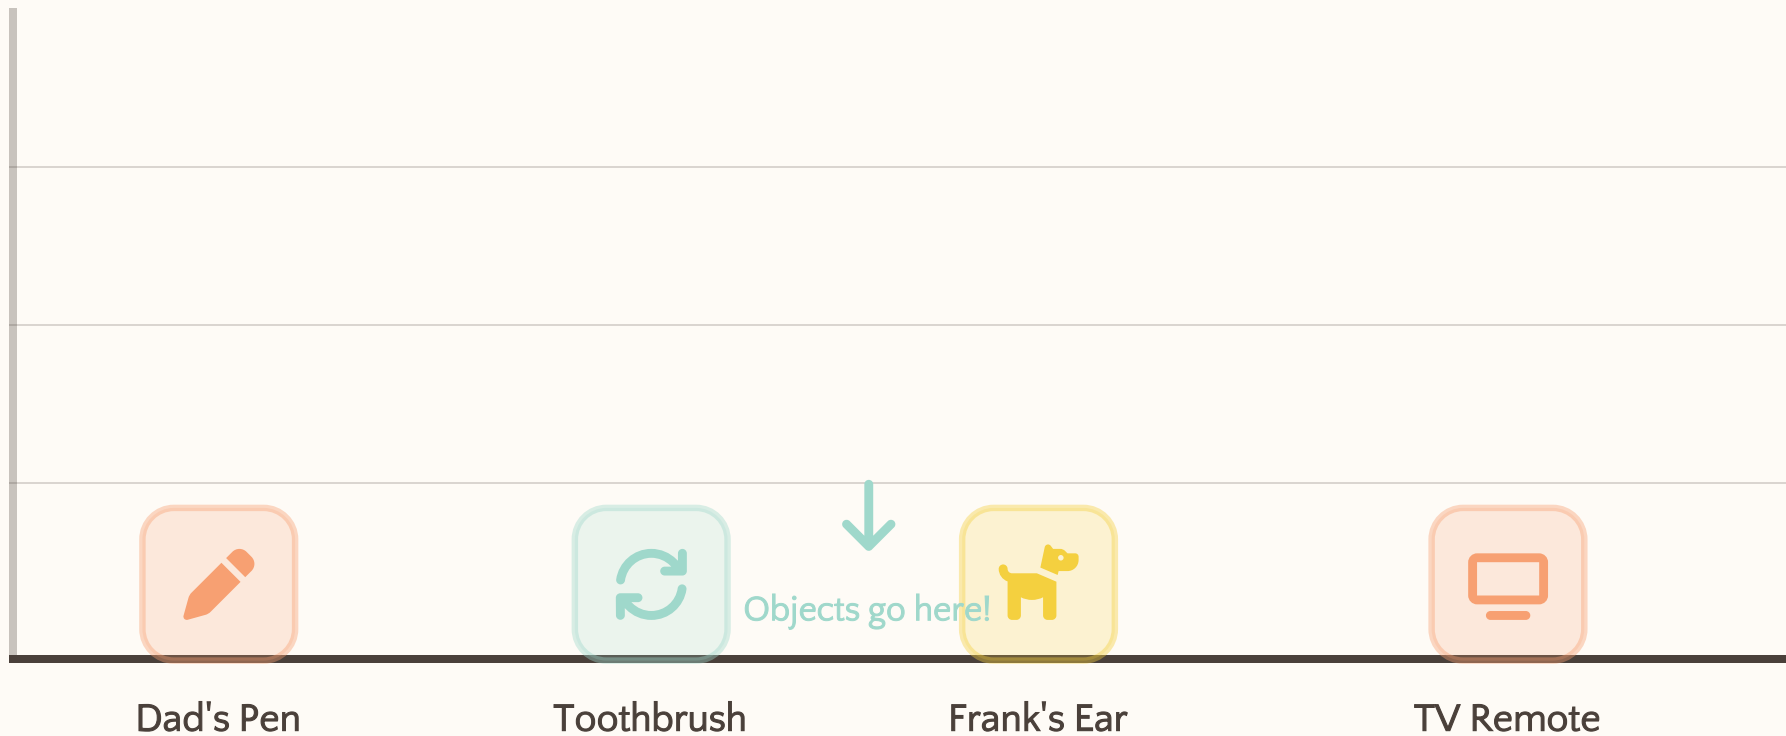

1

# What did we measure?

The **bottom line** of the graph is for the objects we are measuring.

1

X-Axis (Bottom Line)

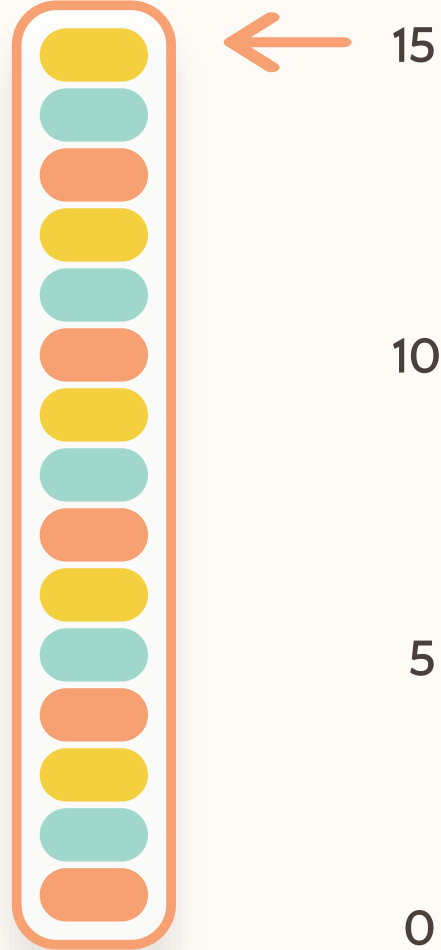

**Remember:** The X-axis is where we put the things we measured!

2

## How many jellybeans?

The **side line** has numbers. It tells us how long things are in jellybeans!

Y-Axis (Side Line)

### Numbers go here

The side line shows how many jellybeans tall things are.

### Jellybean ruler

Each jellybean = 1 unit of measurement!

### Counting up

Start at 0 and count higher as you go up!

2

We count up: 0, 5, 10, 15...

3

# Draw the Bars!

We colour up to the number. Let's make our graph!

3
